Education

Full Stack Developer, Upgrade Hub

09/2022 – 12/2022 | Madrid, Espanya

During the bootcamp I learned the Javascript language using several frameworks including React, Node and Angular.

Marketing & Digital Communication, Euncet Business School

09/2017 – 12/2022 | Barcelona, Espanya

In my career I learned everything about the marketing world. I grew as a student and developed my best skills such as teamwork.

Community Manager & E-Commerce, UOC

03/2020 – 01/2021 | Barcelona, Espanya

Professional Experience

Oriol Balaguer Store Manager

12/2019 – 09/2022 | Barcelona, Espanya

I worked as a sales clerk in the store where I was responsible for organizing production, consumption and sales.

Oriol Balaguer Store Manager

01/2023 – 02/2024 | Barcelona, Espanya

Control of social networks. Logistics and sale of products to the stores.

Internships, Full Stack Developer

03/2024 – 08/2024 | Sant Cugat del Vallès, Spain

During my 6-month tenure as a software developer at TAI, I developed tailored software solutions for clients, including designing and implementing layouts for accessing company, machinery, and industrial data. I also refactored legacy code from JavaScript to React, improving performance and maintainability. This role enhanced my front-end development skills and my ability to create user-friendly software interfaces based on client needs.
