Carrer General Mendoza, Barcelona

## Education

- **Full Stack Developer**  
*Upgrade Hub* September 2022 - December 2022  
During the bootcamp I learned how to use the Javascript language along with html and css. In javascript I developed with frameworks like React, Node, Angular and Next. We also use git
- **Marketing and Digital Comunitation**  
*Euncet Business School* 2017-2022  
In my career I learned everything about the marketing world. I grew as a student and developed my best skills such as teamwork.
- **Community Manager & E-Commerce**  
*Universitat Oberta Catalunya* 2020-2021

## Experience

- **Oriol Balaguer**  
*Store Manager* 2019-2022  
In Oriol Balaguer I was working in customer service in a renowned pastry shop in Barcelona. I was store manager and took care of the logistics of the store.
- **Oriol Balaguer**  
*Store Manager* 2023  
This was my second time here, I was working in the same position as last time. I also took care of some of the social media.
- **TAI Smart Factory**  
*Intership Web Developer* March 2024 - September 2024  
During my 6-month tenure as a software developer at TAI, I developed tailored software solutions for clients, including designing and implementing layouts for accessing company, machinery, and industrial data. I also refactored legacy code from JavaScript to React, improving performance and maintainability. This role enhanced my front-end development skills and my ability to create user-friendly software interfaces based on client needs.

## Web projects

### Optica Carrilet [www.opticacarrilet.com](http://www.opticacarrilet.com)

During the year 2023 I was working as a freelance developer with the project of the design and creation of the website of the optician's of lhospitalet. I did it with react
